

THE 4 STEP DIY ACNE FACIAL

@MYMODERNAE

step ONE

Keep skin hydrated with a facial mist. That way, you don't need to touch your face.

@MYMODERNAE

step TWO

*Use 2 cleansers,
a gentle lathering cleanser (i.e.,
foaming) that is effective even on
sensitive skin, and an acne-
targeting wash, especially if you
wear makeup regularly.*

step THREE

*Use a mask made with clay
2-3 x week, which helps absorb
any superficial oil (and can have a
mattifying effect) and acts as a
mild exfoliator.*

step FOUR

Our go-to product is the Super Purifiant gel by Dr.Schrammek.

A paraben-free gel that supplements cleansing while soothing to leave skin feeling clear, calm, and rejuvenated.
